

WILLIAMS
JET TENDERS

Our Passion.
Your Joy.

D I E S E L J E T

D I E S E L J E T

415 | 445 | 505 | 565 | 625

A black Williams jet tender is shown from a high-angle, rear-quarter perspective, moving across a dark blue body of water. The boat is leaving a white wake. A person is seated at the helm, and a red ensign flag is visible at the stern. The background features a dark, silhouetted coastline under a warm, golden sunset sky. The boat has 'WILLIAMS' and 'JET' visible on its side.

The world's leading jet tender specialists.

From the moment our first tender took to the waters in 1996, the Williams name has been a byword for engineering excellence and pure boating pleasure.

Since then, we've expanded the fleet so that owners of all yacht sizes can experience what it means to own a Williams.

Which, depending on your mood, might be ferrying guests in the lap of luxury. Or it might be pushing the throttle and turning your tender into a high-performance ski boat.

However you use it, every Williams tender is the result of a single goal: to make the very best boats possible so you can have the very best time on the water.

Williams Jet Tenders. Our passion is your joy.

Build your tender at williamsjettenders.com

Ensuring your tender and yacht are made for each other.

The yachting experience begins and ends with your tender. That’s why every Williams tender is built to maximise comfort, style, practicality and performance – the same qualities you look for in your yacht.

But we push things a little further. Our decades-long relationships with yacht builders mean our tenders work seamlessly with their garage systems and are an ideal match for your yacht’s size and performance.

Which means, not only are our tenders are built with the world’s best yachts in mind, the world’s best yachts are built with our tenders in mind.

Arrive in style.

D I E S E L J E T

When it comes to the perfect getaway, it's not just about the destination, it's also about the journey.

We designed the DieselJet to be as sleek and stylish as it is spacious and practical, so your guests will be just as impressed with how it looks as they are with how it rides.

The DieselJet's ergonomic seats and sumptuous upholstery guarantees you the most comfortable of journeys, while its smart hull design keeps the waves in the sea and out of the boat. The DieselJet's ample space also means there's always plenty of legroom and luggage storage.

With the DieselJet, the journey to your yacht is a combination of grace and exhilaration – the perfect start to your guests' time at sea.

Extra tender

The DieselJet has been designed to ensure the luxury on board your yacht continues through to your tender.

With its abundance of space, luxurious seating and high-performance Yanmar engine, the DieselJet is the ultimate combination of people-carrying practicality and rip-roaring performance.

And because it runs on diesel, like your yacht, there's no need to carry separate fuel loads.

Thanks to its many customisable options, from installing extra equipment to having your yacht's name emblazoned on the tubes and seating, your DieselJet will always be unique to you.

High-performance, powerful Yanmar diesel engine.

Safe, high-torque jet propulsion system with no exposed propeller.

Hull designed to be supremely stable at rest, highly manoeuvrable at speed and dry riding.

Luxuriously detailed and spacious interior with excellent seating capacity.

A host of standard features including digital dash, teak decks, tube steps, ski pole, bathing ladder and removable tubes.

Customise your tender with a range of colour options, fittings and electronic equipment.

“ I know exceptional performance when I see it, and that’s exactly what Williams has delivered.

Eddie Jordan, F1 entrepreneur and DieselJet owner.

DIESELJET

415

Ever since we launched our first DieselJet, there's been demand for a smaller model to bring the craft, practicality and comfort of the range to owners of 22-metre (75ft) yachts.

The DieselJet 415 is the result. At just over four metres long, it carries six passengers with ease, along with 68 litres (18 US gallons) of fuel.

But its smaller size doesn't compromise performance – its 110hp Yanmar engine means you can feel the signature thrill of a Williams tender whenever the feeling takes you.

DIESEL JET
445

The DieselJet 445 is luxury in a compact package. Designed to fit yachts of 25 metres (82ft) and larger and, powered by a 110hp Yanmar engine, the 445 turns everyday ferrying into pleasure cruises and day trips for up to seven passengers.

Like other tenders in the range, the 445 carries plenty of fuel (68 litres, 18 US gallons) for days out on the waves, which means your tender can be much more than just a boat that takes you from ship to shore.

DIESEL JET
505

The DieselJet 505 is a master of comfort and practicality. Its cleverly engineered layout means eight passengers can stretch out and still have plenty of space to store their belongings.

As with all DieselJets, the 505 offers easy boarding, with its multiple boarding platforms and grab points – perfect for nighttime excursions or for those who are a little nervous at sea.

This sense of security carries on inside the boat, with hand holds and leg bolsters to keep you firmly in place, so you can focus on just enjoying the ride.

DIESEL JET
565

If you own a superyacht over 35 metres, you need a tender equal in stature. That's where the DieselJet 565 comes in.

With its larger hull and abundant seating, the 565 mirrors the splendour you're used to on your yacht. Which means its nine passengers can luxuriate in comfort, whether planing nimbly over the waves or slipping gracefully into harbour.

But if you want to put the throttle down, its 150hp Yanmar engine packs the signature Williams punch. And to make matters even more exhilarating, you can upgrade to a blistering 195hp engine.

SPECIFICATIONS

LOA
5.71m / 18ft 8in

DIESEL JET
625

The pinnacle of style and comfort, the DieselJet 625 takes cruising in its stride, ironing out the swell with ease.

As the largest DieselJet, with a 140-litre (36 US gallon) fuel capacity, it carries up to 11 people in trademark style and comfort.

But don't be fooled by its generous size: the 625's thrilling performance delivers whip-sharp turns and high-speed manoeuvres. Just tell your wakeboarder to hold on tight – especially if you select the 230hp engine upgrade.
