TURBOJET

Discover the joy.

TURBOJET

285

325

We make the world's leading jet tenders so you can make the memories.

Since we launched our first boat in 1996, we have been changing the game and challenging the boundaries of boat building. Today, we are recognised as the pioneers of luxury, high-performance jet tenders... and we're just getting started.

Compelled by a desire to explore, we remain dedicated to evolving our craft through cutting-edge technologies, materials and processes that are fit for the future.

Built with passion, unrivalled expertise and exceptional craftsmanship, our boats are made to give you memorable moments on the water.

Discover the joy.

We are evolving our
craft for a better future
and we want you to
share the journey.

An icon perfected.

TURBOJET

The TurboJet changed the industry when it was launched in 2005, with its groundbreaking design and powerful 4-stroke engine. It's a formula we've updated again and again, upgrading the TurboJet's features and streamlining its design into this most modern of icons.

Today, the TurboJet is powered by a 90hp Rotax ACE 903 engine, which delivers exceptional performance and fuel efficiency. Combined with redesigned upholstery for the ultimate in comfort and an improved hull delivering supreme handling, the TurboJet is better – and more iconic – than ever.

Made for each other.

The world's best yachts are built with Williams in mind, making our jet tenders a seamless extension of your onboard life, designed to fit and perform exactly how you need them to.

Our long-standing relationship with yacht builders means our tenders fit seamlessly with their garage systems, ensuring style, practicality and performance come as standard, but the experience of a Williams tender remains uniquely special.

Build your tender at williamsjettenders.com

With its mix of grace, practicality and power, the TurboJet is not only incredibly versatile, it's a tender that comes packed with features to deliver a first-class experience.

Its BRP petrol engine offers improved performance and efficient fuel economy, so it's perfect for longer journeys when it's not just about getting to your yacht and back. And so you never lose your way, the TurboJet's optional Raymarine chartplotter helps you navigate safely.

Every TurboJet comes with comfortable SeaDek flooring and a bathing platform, ideal for when you want to turn the engine off, relax and go for an impromptu swim.

TURBOJET 285

LOW PROFILE MODEL AVAILABLE

The TurboJet 285 fits into smaller garages and bathing platforms of most 12–16m (39–52ft) yachts, so it's ideal for smooth trips to the quayside for supplies or a leisurely bite to eat.

But it's when you fire up the BRP Rotax engine, carve tight circles into the waves and go flat out in straight lines that you and your three passengers will discover why we call this iconic tender the TurboJet.

SPECIFICATION

LOA

2.90m / 9ft 6in

BEAM

1.70m / 5ft 7in

Low profile version

TURBOJET 325

Thanks to its clever engineering and generous storage, the TurboJet 325 can easily accommodate four adults and keep their essentials dry as you spend a day on the waves.

But press the throttle forward and feel the surge of the Rotax engine coming to life, and all thoughts of how practical the TurboJet is will disappear.

And with a 40-litre fuel capacity, you can be confident that cruising further afield won't be an issue – just make sure you don't forget the wakeboard and water skis.
